INTRODUCTION

I am a 400-level Computer Science student at the Federal University of Technology, Akure (FUTA), with practical experience in frontend web development. I am currently expanding into mobile development with React Native through Rise Academy. I am looking for an internship or SIWES placement where I can apply my skills and grow as a software engineer.

SKILLS

- Frontend Development: JavaScript, TypeScript, React, Next.js, React Native (Expo), HTML5, CSS3, Tailwind CSS
- UI/UX Implementation: Pixel-perfect conversion of Figma designs to responsive web and mobile interfaces, responsive design, mobile-first development, reusable component architecture, accessibility-aware UI development
- State & Form Management: Zustand, React Query, React Hook Form, Zod
- Backend & Database: Appwrite, Supabase
- Tools & Workflow: Git, GitHub, Vite, Expo Router, Figma, REST API integration
- Soft Skills: Problem-solving, teamwork, communication, attention to detail, fast learning

PROFESSIONAL EXPERIENCE

Frontend Developer (L!nkup)

October 2025 – Present

- Worked on the development of the L!nkUp web platform using modern frontend technologies to build responsive and user-friendly interfaces.
- Implemented UI components and layout structures to maintain a consistent and scalable design system across the product.
- Collaborated closely with the design and product team to translate wireframes and concepts into functional web pages.
- Optimized frontend performance and responsiveness to improve user experience across different screen sizes and devices.
- Contributed to product iteration by fixing UI bugs and improving features based on team feedback.

Frontend Developer (Freelance & Independent Projects)

January 2023 – Present

- Designed and developed responsive web applications using React, Next.js, Tailwind CSS, and TypeScript.
- Built a full fintech web application (Anchor Clone) with dashboards, multi section architecture, and simulated authentication flow
- Developed CloudHub, a SaaS landing page with theme toggling, GSAP animations, and responsive design across devices.
- Optimized website performance and improved Core Web Vitals through code and asset optimization

---

PROJECTS

- Anchor Real Estate Loan Website – Fintech Clone
  Stack: TypeScript, Next.js, Tailwind CSS
  Live: https://anchor-clone.vercel.app
  A multi-section fintech web application featuring dashboards, simulated authentication flow, and a clean financial product UI.
- Furnisheet – Furniture Rental Platform
  Stack: TypeScript, React, Next.js, Tailwind CSS
  Live: https://furnisheet-nextjs-9xbf.vercel.app
  An e-commerce web app for browsing and renting furniture, with product listings, cart functionality, and responsive layout.
- CloudHub – SaaS Landing Page
  Stack: TypeScript, Next.js, Tailwind CSS, GSAP
  Live: https://cloudhub-steel.vercel.app
  An interactive SaaS landing page with theme toggling, scroll-based GSAP animations, and fully responsive design.
- SuperDAO – DAO Platform Landing Page
  Stack: TypeScript, Next.js, Tailwind CSS
  Live: https://superdao-landing.vercel.app
  A clean, modern landing page for a decentralized autonomous organization platform.
- MeditationApp – Mobile Meditation App
  Stack: TypeScript, React Native (Expo), Appwrite, Zustand, React Query
  Repo: https://github.com/Jay-Tiroh/MeditationApp
  A cross-platform mobile app with onboarding, authentication, and session tracking, built with a full auth flow powered by Appwrite.
- Housely – Property Discovery App
  Stack: TypeScript, React Native (Expo)
  Repo: https://github.com/Jay-Tiroh/Housely
  A mobile property discovery app featuring location-based search, maps integration, reverse geocoding, and Google Places API.
- Product List with Cart – Frontend Mentor Challenge
  Stack: HTML, JavaScript, Tailwind CSS
  Live: https://chizuru-product-list.vercel.app
  A responsive product listing UI with an interactive cart, built as a Frontend Mentor challenge.

EDUCATION

BTech in Computer Science
Federal University of Technology Akure
06/2023 - Present
Current Level: 400

INTERESTS

- Artificial Intelligence and emerging technologies
- Web animations and interactive interfaces
- Mobile application development
- Building digital solutions for local businesses
- Open source contribution
